

SumTotal®

ARE YOU READY FOR THE CERTIFICATE OF PROFESSIONAL COMPETENCE?

How will you manage and track your driver training to meet the latest EU directive?

Fail to comply and you could be facing fines and business disruption.

Get ahead by acting now. Reduce the risk of non-compliance and cut training costs before the deadline with a single system to input, track and review all your employee training – including automatic audit trail and reports.

“The SumTotal solution allows us to manage the requirements of certifications and strict regulatory compliance, saving time and money, and it makes our training easily accessible to all employees from any location at any time.”

Holland America Line

With the SumTotal Enterprise Solution, you can:

- track and manage Certificate of Professional Competence training and completions centrally
- identify training gaps and measure business impact
- quickly access employee certification history
- alert employees to outstanding training needs
- easily produce compliance reports for internal or external audits

You can't afford to ignore the Certificate of Professional Competence
